## PROFESSIONAL SUMMARY

---

MCA graduate and Python developer with hands-on experience in Python, OOP, SQL, REST APIs, Git, and web development. Familiar with Flask/Fast API, JSON, Docker, and asynchronous programming, with projects in cybersecurity and computer vision. Strong problem-solving and debugging skills with a focus on clean code and practical solutions. Quick learner eager to contribute and grow in a software development role.

## EDUCATION

---

**Master Of Computer Applications** | 2026 | 83%

**B.sc in Computer Science** | 2024 | 81%

**Intermediate** | MPC | 2021 | 87%

**SSC Standard** | 2019 | 95%

## TECHNICAL SKILLS

---

- **Programming Languages** : Python, Java (Basics)
- **Database Management** : MySQL, SQL Queries, CRUD, Database Integration
- **Web & API's** : HTML, CSS, Flask, Fast API, REST APIs, JSON
- **Tools & Applications** : Git, GitHub, Docker, Microsoft Excel, Word, PowerPoint
- **Data Processing** : CSV/JSON Processing, Basic ETL Concepts

## INTERNSHIPS & CERTIFICATIONS

---

### Python for Data Science Internship

- Gained hands-on experience with data manipulation and analysis.
- Participated in a React and Node.js long-term course, building full-stack web applications.
- Implemented fundamental CRUD concepts with database integration using MySQL and MongoDB.

### Python Internship – Sri Tulasi EDTECH

- Developed and tested Python programs using functions, OOP, data structures, exception handling, and file/data processing.
- Practiced debugging, code organization, and implementation of programming solutions

### Front-End Development Internship - Navodita Infotech

### AWS Training & Certification course on Amazon Aurora MySQL and Amazon RDS MySQL

## ACADEMIC PROJECTS

---

### Cybersecurity: Data Protection using Hybrid Encryption and Steganography

- Developed a secure data-protection application combining AES + ECC encryption with image steganography to protect sensitive information.
- Implemented REST APIs, MySQL storage, hash verification, and OTP-based authentication for secure data processing and verification.

### Smart Attendance Management System using Face Recognition

- Developed a real-time face-recognition-based attendance system to automatically identify students and record attendance.
- Reduced manual effort and helped prevent proxy attendance through automated identity verification.

## KEY SKILLS

---

Teamwork and Collaboration | Quick Learning Ability | Attention to Detail
